News from around the County!

Students enrolled in Mississippi Delta Community College's economics and legal environment courses recently toured the Nissan plant in Canton, Miss. A tour guide led students through the manufacturing area, which is part of the 4.2 million-square-foot facility. With an annual payroll over \$200 million and more than 5,600 employees, the Canton-based facility was fascinating to the students who visited.

Students learned about each phase of the production process while also viewing a new van recently added to the production line.

Michelle Street, business instructor, coordinated the field trip. "Thanks to Nissan of Canton for allowing the students of MDCC to see first-hand what a great economic asset Nissan is to our state," she said.

The Job Fair network is a statewide program that serves to facilitate for those seeking employment as well as for companies seeking qualified employees, and is an excellent outlet for showcasing what Mississippi has to offer.

The Governor's Job Network will hold a **Sunflower County Area Job Fair** on Thursday, November 21, 2013 from 9a.m.-2p.m. at the National Guard Armory in Indianola.
